An open to the Bu Army

Bp88-900

SIR: As an organisation comprised of and supported by Burmese citizens, the Burmese Army's duty is to protect the people and their country, not a gang of criminals.

Today the Burmese people are fighting for democracy after a military rule by Ne Win and his men who turned our once beautiful and rich country into one of the ten poorest countries in the world. In the people's struggle, the Army is a decisive factor.

The ordinary people are sacrificing their lives without hesitation for the good and just cause. The Army must help them save the country.
